

Amit Bisht

Senior Front End Engineer

+91-9870710776 | abbisht.amit@gmail.com | [linkedIn](#)

Senior Front-End Developer with 5+ years of experience building scalable, high-performance web applications using Angular, TypeScript, JavaScript (ES6+), RxJS, HTML5, and CSS3. Expertise in front-end architecture, state management (NgRx), and performance optimization, with a focus on reusable component design and modular UI development. Proven experience integrating RESTful APIs to deliver responsive, data-driven applications. Strong contributor in Agile environments, delivering production-ready code, mentoring developers, and improving development workflows. Passionate about modern web technologies to enhance performance, scalability, and user experience.

Technical Skills

Languages & Frameworks: Angular 16+, JavaScript (ES6+), TypeScript, HTML5, SCSS, Bootstrap, RESTful APIs
State Management & Libraries: RxJS, Angular Material, NgRx
AI Tools: Generative AI (ChatGPT, GitLab Duo, AI-assisted development, Copilot)
Version Control & Collaboration: Git, GitHub, GitLab, Bitbucket, JIRA, Confluence, Agile/Scrum
Developer Tools: VS Code, IntelliJ, Eclipse, Cursor, Replit, Notepad++, Postman

Experience

Accenture

Nov 2024 – Present

Senior Analyst

Pune, Maharashtra

- Led migration and modernization of a large-scale enterprise application from **Angular 10 to Angular 19**, improving **performance**, **scalability**, and **maintainability**, and enabling micro-frontend architecture.
- Designed and developed **30+ reusable Angular components** and **workflow-driven UI screens**, enhancing **UI consistency** and accelerating feature delivery.
- Optimized performance using **lazy loading**, code splitting, and efficient change detection, reducing page load times by up to **35%**.
- Implemented **centralized error handling** and **global exception management**, significantly improving application stability and debugging efficiency.
- Resolved **300+ critical** and **500+ major SonarQube** issues, strengthening **code quality**, **security compliance**, and maintainability.
- Integrated **RESTful APIs** and optimized **data-fetching strategies**, delivering responsive and seamless user experiences.
- Configured and managed **GitLab CI/CD pipelines**, leveraged **GitLab Duo (AI-assisted development)**, and coordinated **deployments**, ensuring efficient release cycles and reduced defects.
- Maintained and enhanced testing frameworks (**Jasmine**, **Karma**), achieving **high unit test coverage** and reducing regression issues by **15%**.

Tata Consultancy Services

July 2021 – Oct 2024

System Engineer

Pune, Maharashtra

- Led migration of a large-scale web application from Angular 6 to Angular 14, improving performance by 30% and reducing bundle size by 20%.
- Designed and developed 40+ reusable Angular components, directives, pipes, and services to enhance scalability and accelerate development.
- Optimized application performance using **nested Reactive Forms** and efficient state handling, achieving a 20% performance improvement.
- Implemented client-side data persistence using **local storage** to improve user experience and reduce redundant API calls.
- Managed tasks and sprint workflows in JIRA; utilized Git/Bitbucket for version control and NPM scripts for build automation and testing.
- Applied **Test-Driven Development (TDD)** practices to ensure high code quality, reliability, and reduced production defects.

Projects

FileGateway Platform

June 2025 – Present

Senior Frontend Developer

Client: Barclays(UK)

- * Implemented centralized error handling mechanisms using interceptor to improve application stability and debugging efficiency.
- * Designed and developed end-to-end UI flow for users to add/edit/delete bank account details and manage subscribed services, improving user onboarding efficiency.
- * Integrated **AppDynamics** for real-time application performance monitoring, enabling proactive identification of bottlenecks and improving system reliability.
- * Synchronized frontend validation logic with backend **OAS (OpenAPI Specification)** standards, ensuring consistent data validation across the full stack.
- * Developed new workflow screens and enhanced existing UI components for improved user experience and process efficiency.
- * Optimized application performance through code refactoring and adherence to best practices, resolving SonarQube issues.
- * Leveraged **GitLab Duo** for AI-assisted development and improved code review efficiency.
- * Supported **deployment activities** and ensured smooth release cycles in collaboration with cross-functional teams.

CJ Mutui - Mortgage Application

Nov 2024 – May 2025

Senior Frontend Developer

Client: Intesa Sanpaolo Bank (Italy)

- * Contributed to the development of a 7-phase mortgage app, enabling users to add guarantors, co-guarantors, and manage TDI.
- * Developed and optimized reusable Angular components for improved maintainability and scalability across user roles.
- * Migrated legacy code to Angular best practices, reducing technical debt by 30%.
- * Improved user experience with smooth navigation across all 7 phases, boosting user satisfaction by 20%.
- * Collaborated with backend and testing teams for seamless integration and automated testing of key workflows.

Investment and Credit Services Platform

Sept 2021 – May 2023

Frontend Developer

Client: TD Bank (Canada)

- * Developed scalable and responsive UI modules for investment plans and credit limit increase workflows using Angular, HTML5, and CSS3.
- * Built reusable, modular Angular components to ensure UI consistency and accelerate development cycles.
- * Implemented Angular Router and lazy loading for optimized navigation and reduced initial load time by up to 40%.
- * Designed and implemented Reactive Forms for secure, efficient, and dynamic user input validation.
- * Integrated RESTful APIs for real-time data processing, reducing response time by 25%.
- * Ensured accessibility compliance and cross-device responsiveness in collaboration with UX/UI teams.

Education

Graphic Era University

Dehradun, Uttarakhand

B.Tech in Computer Science || CGPA—8.9/10

July 2017 – June 2021

DSB International Public School

Rishikesh, Uttarakhand

12th — 93.6% || 10th—93%

Mar. 2015 – May 2017
